

My kids & I listen to K-LOVE daily at home and as we travel to & from school, sports games, church, shopping, etc. It helps keep the mood positive and the squabbling at a minimum. I can turn on and not worry about the words being heard by impressionable ears & minds. There are tidbits of info that help me as a parent and as a member of my community. The encouraging words & uplifting music are often times the difference between a positive and a negative mood in our home or car, much less our heart & mind. Please don't make me lose my K-LOVE!
